KING GEORGE WITNESSED THE GAME

White Sox Defeated Giants in an Eleven Inning Game by Score of 5 to 4—Daley Bangs Out a Homer Which Won the Game-Britishers Mystified Throughout - About 30,000 Saw the Contest.

London, Feb. 26.—The king of England, as a baseball fan, today experienced the thrill that comes when a rienced the thrill that comes when a spectacular hit breaks up an extra inning game. Seated within a wire-enclosed box behind the home plate of a diamond that had been laid out on the Chelsea football field. His Majesty saw, in the second half of the eleventh inning, Tommy Daley of the Chicago Sox meet with his bat a fast ball delivered by Faber of the New York Giants, drive it far across the field and into the topmost bleachers for a home run and won the game for Chicago, 5 to 4. The king clapped his hands enthusiastically as Daley trotted around the bases and the thirty thousand other spectators followed the king's example.

DOINGS IN THE AUTOMOBILE WORLD

T. L. Sayre is authority for the story of an 800 mile race over the smooth ice of the Athabaska river to reach an Indian trapper whose fine collection of fox skins, described by an incoming speculator, had stampeded the fur buyers at Edmonton. When the first report of a big cahehe of skins reached Edmonton two motor parties set out to buy the Indian's stock. There had been no snow north of Edmonton and the rivers and lakes were solidly frozen. Both parties therefore took to the ice and attained high speed. Two days after the first party had started the owner of another car left Edmonton in the hope of overtaking the others. Following the same trail on the rivers and lakes, he overhalied both of the other parties and reached the trapper, 400 miles from Edmonton, a full day ahead of the others. With the entire lot of furs stowed away in the tonneau of his machine, the successful speculator returned toward the city and found both of his rivals stranded at different points on the trail. When he returned to Edmonton the furs were sold at a profit of \$2,000.

Motor trucks, with their broad tires, are not injurious to improved highways, but are actually beneficial and assist in their upkeep, says C. W. Martin, Jr., manager motor truck tire department, the Goodyear Tire and Rubber company.

"Heavy hauling on roads must either be done by broad tired motor trucks or by wagons with steel tires, much narrower in comparison. The effect of narrow tired vehicles in plainly ruinous. The broad, heavy truck tires, simulating the action of steam rollers, are found to actually make good roads better, whereas narrow tires cut and destroy them.

"The agitation noted some time ago against use of motor trucks on highways in some of the states is wearing itself out.

"On the other hand, the motor truck is now halled as a means of solving the railroad situation by affording the railroad situation to improve this breath this year.

Motor trucks, more and more, will enable farmers to market their produce quickly and at less expense, enlarging their profits and lowering the cost to consumers, thus affecting the cost to consumers, thus affecting the cost to consumers, thus affecting the cost of living in a desirable way.

"Of course, the ideal condition cannot arrive until this country has a thorough system of good roads. Fortunately, there has been a great awakening and a demand for better roads among all classes of American people in the last few years. No one thing before the public is nearly so important to all the people, as affecting their condition of life, as the good roads movement now so generally apparent."

Changed New.

Are the catchers in the National league a trifle better marksmen than those of the American, or does the American carry the edge in speed?

Last season American league base-runners pilfered 1677 sacks, against 1576 in the older league—a jump of over 100 thefts. In the National, New York and Circiposati over 100 thefts. In the National, New York and Cincinnati were the only clubs to organize over 200 steals, while in the American no less than while in the American no less than five of the eight clubs ranged above this mark, outlining a distinct margin. But whether Cobb, Milan, Moeiler, Jackson, Collins, etc., are faster than Carey, Bescher, Burns and Shafer or whether Archer, Meyers, Killifer, Rariden, Wingo, etc., are better peggers than Schang, Schalk, Sweeney, Ainsmith, Henry, etc., is another argument.

There was a time when the Nation-There was a time when the National had a big margin in backstopping material, but, with such American league additions at Schang. Schalk, Agnew, Henry and a few others, this edge has been cut down with the passing of Kling and the waning of Bresnahan.
